Mean travel time to work ¹	15.4 min	26.8 min	17.9 min	16.2min	18 min	14.8min	23.5min	11.1 min	22.2 min	25.5min

Community-level data lag county-level data as the U.S. converts to the American Community Survey(ACS). For a link to the most current <http://factfinder.census.gov/>

¹ From the American Community Survey.

² From the American Community Survey. State and national percentages are computed.

³ From the Oregon Employment Department's Oregon Labor Market Information System.

⁴ From the Oregon Department of Education based on most current available published data.

⁵ From the Oregon Department of Human Services Child Welfare Data Book.

⁶ Data are calculated by dividing median monthly owner cost of households with a mortgage by median household income as reported in the American Community Survey.
